

Do your part to protect the environment by recycling!

Collection Days are the FIRST and THIRD TUESDAY of the month!

Blue Bag

Blue bag recycling collection is an easy, efficient and eco-friendly way to recycle. Using blue bags protects materials from elements and prevents materials from blowing around the wind. Using blue bags allows a higher volume of recyclables to be placed out with greater ease so residents can recycle more.

Please ensure that all items are clean, dry, and free of food or other contamination.

Please do not put plastic bags, twine, or string in collection bins.

What Can Be Recycled?
